COMPREHENSIVE PLAN ELEMENTS

LAND USE

Rural Residential (RR) Character Area

The purpose of the Rural Residential category is to provide for areas that are suitable for low-density housing with densities of up to four (4) dwelling units per acre. Single-family detached housing is the most appropriate type of development for this district. STANDARDS OF REZONING REVIEW

Section 7.3.5 of the Stonecrest Zoning Ordinance list eight factors to be considered in a technical review of a zoning case completed by the Community Development Department and Planning Commission. Each element is listed with staff analysis.

- **Whether the zoning proposal is in conformity with the policy and intent of the comprehensive plan.**

The subject property is located within the Rural Residential character area of the Stonecrest Comprehensive Plan. The purpose of the Rural Residential category is to provide areas that are suitable for low-density housing with densities of up to four (4) dwelling units per acre. Single-family detached housing is the most appropriate type of development for this district. Stable Low-Density Residential Districts should be protected from encroachment of higher density or high intensity uses.

The proposed zoning is in an area that is primarily medium density housing. The current character of the area shows many of the surrounding properties to be single-family detached. The proposed zoning change and development of small lot residential use would not be in keeping with the policy and intent of the comp plan; which R-60 zoning classification is not one of the permitted zoning districts for the classified future land use character area.

- **Whether the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby property or properties.**

The proposed change in zoning would not permit a use that would be suitable in the view and development of the nearby properties. The R-60 Zoning classification would allow small lot residential dwelling, which would not be similar to the surrounding use.

- **Whether the property to be affected by the zoning proposal has a reasonable economic use as currently zoned.**

The property is currently zoned R-100, which permits the development of detached single-family home development with a minimum lot size of 15,000 square feet. The property does have reasonable economic use as currently zoned. The property sits along Evans Mill Road, which is a minor arterial road in a suburban neighborhood.

- **Whether the zoning proposal will adversely affect the existing use or usability of adjacent or nearby property or properties.**

The proposed zoning proposal is not anticipated to have a negative impact on the existing use or usability of adjacent or nearby properties.

- **Whether there are other existing or changing conditions affecting the use and development of the property, which gives supporting grounds for either approval or disapproval of the zoning proposal.**

There are no changing conditions affecting the use and development of the property, which give supporting grounds for either approval or disapproval of the zoning proposal.

- **Whether the zoning proposal will adversely affect historic buildings, sites, districts, or archaeological resources.**

There are currently no historic buildings, sites, districts, or archaeological resources on the subject property.

- **Whether the zoning proposal will result in a use that will or could cause excessive or burdensome use of existing streets, transportation facilities, utilities, or schools.**

The zoning proposal could potentially cause an increase in traffic by the proposed size of the dwellings which has to a minimum of 1,200 square feet. The zoning proposal will cause subject a spot-zoning of the subject property that is surrounded by R-100 zoning classifications.

- **Whether the zoning proposal adversely impacts the environment or surrounding natural resources.**

The zoning proposal will not adversely impact the environment or surrounding natural resources.

CITY OF STONECREST, GEORGIA

Heather and Charles Loveless the applicants were called to speak. They mentioned that different amenities will be included in their development.

There were none to speak for the petition, but Sheree Foust, Timothy Jackson, and Dave Marcus spoke in opposition. Some concerns include the land being unfit for the proposed development, the land being mostly rock, and Arabia Mountain Overlay requirements.

Heather and Charles Loveless stated the development will not be too different from what can be found in an R-100 zoning. They also gave reasonings as to why they decided on the current proposed site plan.
