Councilmember Rob Turner wanted to confirm the applicant will be able to comply with all the conditions the Planning & Zoning Department has put into place with no problem. Ms. Williams replied yes, as she has completed everything that was required. Mayor Pro Tem asked for the distinction between a Community Living Home and a Personal Care Home. The preamble was read by the City Clerk.

Councilmember Tammy Grimes commented December 31, 2026 seems like a long time and Mayor Cobble stated the date can be changed as the development authority is looking to have it repaid as soon as possible. Councilmember Grimes asked if there is any benefit to having the term shortened. Attorney Thompson stated that would rest more on the activities of the Development Authority and she does not know the plan to get to that payment amount but believes shortening terms is good and will get the city its money faster. Mayor Cobble stated the development authority must complete projects and build economic development to generate revenue and without the bank account that cannot happen. As the development authority finalizes development projects the development authority will generate revenue from that and will repay the city. Mayor Pro Tem stated he supports any activities needed to get this jump started and, on the road, again.

Director Green believes in three tenants: Strong BRE Business Retention Expansion. Strong Business Attraction and Marketing and Communications. He is currently working on building out the business attraction component based off the five market sectors that the city is focusing on. The implementation and use of this component is very crucial to accomplishing the goal and will meet the timeline to getting the funds back to the city.
