

CodeClean STONECREST

CodeClean Stonecrest is a Pretrial Court Diversion Program created by the Municipal Court of Stonecrest. The Pretrial Court Diversion Program is the best alternative to prosecuting the offenders in the criminal justice or quasi-criminal justice system. The main idea of this program is to help first-time offenders not to repeat this kind of mistake in violation.

How to Implement "CodeClean"

- ◆ In lieu of being formally charged, an individual cited for an environmental offense will have the opportunity to enroll in CodeClean and complete an environmental course.
- ◆ Upon the completion of the course, and proof of passing the course's quiz, the environmental charge against the offender will be dismissed.

Eligibility for "CodeClean"

To be eligible for CodeClean, the offender must be:

1. A first-time offender
2. Charged with an environmental code violation

Benefits of "CodeClean"

CodeClean will benefit the City of Stonecrest in the following ways:

- ◆ Teaching residents how to comply with the City's Code
- ◆ Assisting residents with coming into compliance with their code violations
- ◆ Maintaining the aesthetics of the City
- ◆ Reducing the number of future environmental code violations
